## Education

---

- **Bennett University, Greater Noida, UP** (2022-2026)  
B.Tech CSE (Data Science & Full Stack)  
CGPA - 9.12
- **Delhi World Public School, Greater Noida, UP** (2019-2022)  
Class X (CBSE) - 93.1% ; Class XII-86.4%

## Achievements

---

- Completed 300+ [Leetcode](#) questions
- Published a paper titled "Fake News Detection in the Field of Healthcare" at ICAN, exploring machine learning approaches to combat misinformation in healthcare.

## Projects

---

### WiseUp

[Link](#)

- Built a transaction management SaaS platform using Next.js, Stripe, and Vercel Cron Jobs to help users monitor and analyze their spending.
- Integrated Recharts and heatmap calendars to visualize transaction data across daily, weekly, and monthly views.
- Automated recurring payment deductions using Vercel Cron Jobs for consistent billing and subscription management.
- Leveraged Gemini AI to deliver personalized spending insights and assist users in maintaining budget limits effectively.

### Anonymous Messaging Platform

[Link](#)

- Developed a secure anonymous messaging platform using Next.js, TypeScript, MongoDB, and Zod for input validation.
- Integrated Google's Gemini API to provide intelligent message suggestions, enhancing user interaction.
- Designed a modern interface with shadcn/ui components and animations from Aceternity UI for a seamless user experience.

### Chatterly

[Link](#)

- Developed a real-time, interactive chat application using WebSockets for low-latency messaging and Zustand for efficient state management, ensuring a responsive user experience.
- Implemented real-time message broadcasting and private chat functionality, allowing seamless communication between users with instant message delivery and live updates.
- Designed a scalable architecture for handling multiple simultaneous users, maintaining smooth performance even under high load, and enabling effortless real-time interaction.

## Skills

---

- **Languages:** C++, TypeScript, JavaScript, Python, SQL
- **Frameworks & Libraries:** Next.js, React.js, Node.js, Express.js, TanStack Query, Prisma
- **Databases:** MongoDB, PostgreSQL
- **Soft Skills:** Teamwork, Communication, Problem Solving
